### *Joseph P Amato*

First of all I want to start off by thanking my family and friends. Now I will tell about memories in and out of school. Hey Josh remember always getting in trouble in English class. Andy thanks for fixing my flat. Also how you guys taught me how to do brake stands, donuts, and things I would have never learned about cars if I wasn't friends with you guys. Andrea you are the nicest

person I could possibly ever be friends with. Rick remember the times we had when we hung out and keep working on getting ready on time. JB remember when we went to look for jobs at several places and when we went to boxing. If I didn't go looking for a job who knows when I would have gotten one. I will always remember eating lunch with my friends throughout high school and the funny laughs with them.

Best of luck to the class of 2004.

—ANDY where do I start? Many nights many tires The good Old Monte. Offroading, 1/8mile burnout's at D&D more donuts than I can remember. Hitting telephone poles, climbing snowbanks and more interactions with the cops than anyone should ever have in a lifetime. Jumps and rally road, 5 cruisers at once not to bad. Don't forget the KX, and many more good times to come. JOE A-thanks for the 20 bucks and don't forget good old English class every year. BRITTANY-don't get "ahead" of yourself, and are you sure that you looked in the truck for your wallet? PACELLI-punish yourself. ANDREA-The best of all. It all started back in the camaro-dirtbiking days. It's been a hell of a ride and still getting better. I love you so much and I'm having the best time of my life with you. I know you just loved riding on the back of my dirtbike so much so don't lie, ya so afterwards you couldn't walk for a few days but that's ok it was all fun. This summer you'll be on the back of my motorcycle don't worry. It might be a little more comfy to. I know I have been pulled over in front of your house a few times but your parents still like me. I know you liked the e-slides in sally, well there is more where that came from. Don't forget your first burnout in the snow in the blue truck either. I just want you to know I love you!

## Marc M. Bianchi (a.k.a. Butch)

Its hard to believe that our senior year has already caught up with us when it seems that high school had only just begun. Actually, I'd rather not blather on about good times and old memories from the past since I'm sure several of my fellow classmates have already written half-pages filled with nostalgia; "Remember the time when blah, blah." Nobody wants to hear that, let alone read it. I choose not to live in the past and remember the "good times." I don't want to use this space to write individual messages to specific people because I don't like reading messages to strangers, its like reading someone else's mail, and nobody does that except maybe Rick. Plus, our grade has been through a lot together and I think these paragraphs should address the grade as a whole, or at least those of you who have not already turned the page. Our grade has some memorable qualities. Ignoring the fact that we were the first group of sixth graders to attend GHS, our grade has accomplished a lot in our time here. I think our grade holds the record for driving the most teachers insane and forcing them to leave the teaching profession forever. Our grade, compared to seniors in other schools, is also noticeably one of the youngest looking group of kids to ever graduate. In closing, I would like to wish everyone the best of luck in college, if, of course, you are going to college

They give you 14 lines to say something memorable. I could never do these past years justice with 14 lines. They have been nothing short of an adventure. Back in 6th grade, 2004 seemed an eternity away. Here we are now, and it all went by so fast. From pink diaries, to Bickford's, to "banishment", I will never forget a single moment.

*'A friend is a person who thinks you're a good egg, even though they know you're slightly cracked.'*

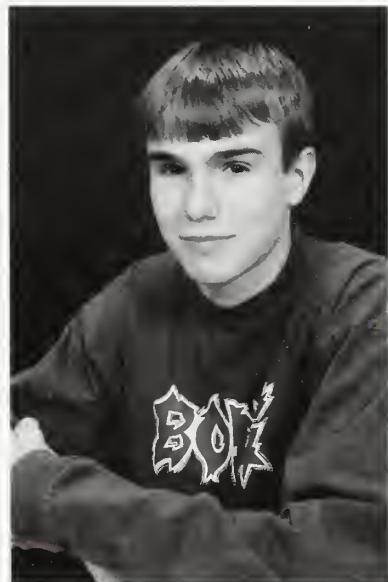

Thank you guys for all the laughter, tears, memories, and guidance you have given me. It's been real.

## Chris DiMaio

Thank god its over. I can't believe it, I've been waiting for this day for 12 years and it's finally here. As long and annoying as it was I had an awesome time over the years. From getting my finger caught in the tire dragon at Perley to throwing Weeburg out of our cabin in Natures classroom. But as we all know most of the good times happen out of school "THE BEAST"(you know foam, crates, whole trees(sorry Jess), JD, Nappy ice, and way to much gasoline) to every one that was their Jared M., Ross, Sloth, Zach, BlackMan, Spaulding, Kat, Emily or who ever came out on those crazy nights, The Beast parties made us who we are and made use the party animals we love. Oh man there is way to much stuff to talk about, racing BMX with Crank 2 wheels, harassing people with Flynn on two way radios in DC, raising hell in Morrison's class, going to the Dungeon with Spaulding and Mary Jane, wrestling for the school in 7th grade with Ed and Zach even though we were way to small for any weight class, or even being covered with sparks cause someone stuck a paper clip in a light socket in science class (I told you I'd never let it go). With all these good times came nicknames some good some bad but here they are (DiMaio, \*iss, \*izz, \*etus, festival and most recently Kid Salami). Well high school was allot of fun, thank you every one for helping me stick it out. Oh ya Pacelli I will always be taller and RAR I'll always be older LOL. With that said thank you all and THANK GOD ITS OVER! Peace, the one and only FESTIVAL.

What can I say to the people that I've grown up with? Although we're going our separate ways, I will remember every one of you. You have all contributed to who I am today.

To my family, my friends, and people I should have known better, thank you for all you have done for me.

I hope you all continue to be the wonderful people you've been to me. You have the power to change lives. Always believe in yourself and in your ability to change the world.

Devote yourself to what you love. Live deliberately. Learn from your mistakes.

J. Shea- Last minute Biology sessions watching Sgt. Bilko, Little Mermaid II, and Land Before Time, just to see or hear previous Newsies. Painting on my walls. Stealing your personality for a character in my book. (imitation is the highest form of flattery, really!) Days talking about the future on a 'cruise' ship and at the bar at the Ag and in your pool. Getting together to see a movie and buying Happy Meals 'cause we're cheap like that. Manda-Another painter of my walls. Playing video games in your basement...and losing much of the time. Study parties to prepare us for the insane test of Dr. Venuti. Again, another one I stole the personality of for my book. Shopping for prom dresses (try the big poofy one! The scary thing is the retro one looks good on you...) Planning how we should redo your room. Hilary-Parties at your house with interesting results. More wall painting. Debates in Biology.

Writing the results of if humans could photosynthesize (the Eskimos would die!) Z- you are totally awesome, I would so bet on you in the crutchy races. Hedda-enemy friends...yes...forever the VGW. Kenny, Sara, Kate D, Steph N...there will always be drama, I'll miss you guys. Steph T... I'll always remember you, though I feel I never really knew all there was to you. Andy-make it dead. Jonathan Smith

AKA: Smitty, Smithers, Smit-dawg,

Instead of making a list of initials that don't mean much to anybody, seeing as how we'll all forget each other through college, I want to say that I did appreciate this school. Without it I would be going to Lawrence High and working at Market Basket for the rest of my life. Thanks to my mother and father for having the foresight to put me in Georgetown. Many of you I have developed healthy friendships with, but in the back of my mind I feel like holding the inside jokes for you personally. If you think I would have acknowledged you I probably would have, as long as I had something original to say, which I don't think I do. I've learned a lot about myself through this place though. Hell, most of us are going to be more brain damaged after "legal" and "mature" drinking activities, so I wouldn't want to confuse you when you look back at this yearbook.

Some Shout-outs: RM you always were a tool; GA I never thought someone could be so in tune with their feminine side; MC the girlfriend is a cover-up; LH I already did forget you existed; MM I am so happy I never have to see you again; KC neck braces don't always get you pity; and all of the others that I never care to see again. I feel like a great weight has been lifted. I have been forgiven, yes I praise God's holy name!!!!

## SCHOOL SPIRIT

Farewell!!

To the Class of 2004 it's been quite a journey. From our preschool years to senior year, this class has created long-lasting memories both good and bad. There was a time when we were once known as the "troubled" grade, but we have matured through the years and will continue to grow in the future. From driving substitutes to quirks on the spot, to outrocking the class of 2003, we always have been known to leave a lasting impression on those we encounter.

Throughout the years we have learned to make positive impressions by being the largest group inducted into the National Honor Society, participating in many hours of community service, and leading teams in record breaking seasons. With the hardships we have faced, our class has grown stronger together, as well as individually. Though our ambitions will take us far from this small town, we must always remember and appreciate the memories that were made here with our classmates of 2004.

We've been together and grown up with each other over the past thirteen years. On our way to high school, we made new friends. Thanks for the memories Class of 2004. Good luck in the future

*On behalf of the Senior Class of 2004, I would like to thank Mrs. Durkee. Mrs. Durkee has been an instructional force behind the success of this class. Without her artistic talents we may have lost the Spirit Rally decorations competition. Her ability to think of new fundraisers on the spot has helped us raise money quickly and efficiently. Mrs. Durkee is also never short on ideas. Sometimes we may not have been the easiest class to handle, but Mrs. Durkee tried her best. When she was asked to be our advisor at the end of our eighth grade year, I don't think she had any idea what she was getting herself into. But I am glad she did. Without Mrs. Durkee we would be back or square one, without money, talent and ideas.*

*Mrs. Durkee, I know how hard you work and how you put all your effort into whatever you are doing. Thank you for being there for our class and making us stronger. Even though most of the work goes unnoticed, we really did notice. Thank you and we love you!*

Mr. Luca once said that he has spent more time with the kids in Georgetown than his own kids at home; but now, after thirty-three years of teaching and coaching he will be able to enjoy the time with his family. Whether it is in the classroom or on the playing field, Mr. Luca demonstrates hard work and determination. His strong advice has shown students the reality of what they can be and how they can achieve their goals. His comedic approach to life brings laughter to the halls of Georgetown High School. During his years in Georgetown, he has worn many different hats; he has coached both the girls and boys soccer team, boys basketball, taught block and white photography, as well as computer graphics, and so much more.

As we graduate from Georgetown High School, Mr. Luca will too, but we will always remember his fun-loving comments that will carry us through life.

You will be missed by all. So, good bye, good luck, and may your retirement bring you happiness.
